

REMARKS/ARGUMENTS

The present Amendment is being submitted prior to the issuance of an Office Action in the present application.

With this Amendment, Applicant has amended the specification to more clearly bring out one of the important features of the present invention, namely the non-deformability of the glass holder under finger pressure in order to guard against forced entry problems. Claim 10 has been amended and new claim 11 has been added to recite this feature.

It is respectfully submitted that no new matter has been added by these changes.

Favorable action on the present application is respectfully requested.

In the event the actual fee is greater than the payment submitted or is inadvertently not enclosed or if any additional fee during the prosecution of this application is not paid, the Patent Office is authorized to charge the underpayment to Deposit Account No. 15-0700.
